

## FASD Information & Self-Regulation Strategies Workshop

Do you work with children and families?

How much do you know about Fetal Alcohol Spectrum Disorder (FASD)?

Would you like to learn strategies and tools to support children and families?

Join NOFASD Australia to learn early intervention strategies for educators, service providers and parents/caregivers. This training is designed to provide knowledge and strategies to enable workers to increase their knowledge of FASD, to better understand the complexity and apply strategies to help work in different ways with children, adolescents, and adults.
